

Environmentally friendly

Weed Terminator for Homes & Communities

Weed Control
Alternative, that
works with nature

Contact Organics introduces an innovative and effective weed control choice.

The Weed Terminators are a range of superior bio-herbicides made from Nonanoic and/or Acetic Acid! Combining cutting-edge technology, in-depth scientific research and naturally occurring ingredients, we present a breakthrough in environmentally-friendly weed control. Contact Organics offers residue free and non-toxic alternative to chemical weedicides.

The Contact Organics difference

- ✓ Made from naturally occurring ingredients
- ✓ Controls weeds & grasses
- ✓ Residue free
- ✓ Conditions soil
- ✓ Cost-competitive
- ✓ Results visible within hours of application
- ✓ Free of glyphosate & other toxic substances
- ✓ Suitable for all public & private spaces
- ✓ Friendly to people, animals, and the environment
- ✓ Prevents weeds from developing resistance
